## STAFF MEMO

**TO:** Mayor Lioneld Jordan *Mike Reynolds*  
**FROM:** Mike Reynolds, Deputy Chief of Police  
**DATE:** June 26, 2014  
**SUBJECT:** Police Department Mobile Computer Terminals

---

### RECOMMENDATION:

It is recommended City Council adopt a resolution approving the purchase of thirty-five (35) Datalux Tracer 5 mobile computers from Future Link of Illinois Inc. as per bid #14-32 in the amount of \$150,500.00.

### BACKGROUND:

The police department deployed mobile computer terminals in patrol vehicles in 1999. Our current terminals, purchased in 2008, are out of warranty, and they do not support our current operating system. This project is a scheduled replacement project.

### DISCUSSION:

These computer systems interface with the New World Systems Computer Aided Dispatch, Mobile Messaging and Automatic Vehicle Location systems, as well as provide access to the Arkansas and National Crime Information Center databases. These computers are essential to run electronic ticketing, accident reconstruction and in-car word processing software. Additionally, these computers will use the same mounting hardware that is already installed in our patrol vehicles.

### BUDGET/STAFF IMPACT:

This project is already funded as a Capital Improvement Project, and there will be no operating expense impact until 2019.
